Forest Service seeks public comment on Stray Creek project

Kamiah, Idaho (October 17, 2019) – The Lochsa-Powell District Ranger invites the public to provide comments during a combined scoping and 30-day comment period for the Stray Creek project. Comments should be submitted with 30 calendar days of the legal notice that was published in the Lewiston Morning Tribune on October 12, 2019.

The Stray Creek project proposes approximately 425 acres of regeneration harvest treatments on the Lochsa-Powell Ranger District 5 miles north of Syringa, Idaho, in Idaho County. Proposed treatments would increase early-seral species diversity across the project area and provide economic benefits to rural communities.

For more information on the project or how to submit comments, visit www.fs.usda.gov/project/?project=53658 or contact Sara Daugherty at sara.daugherty@usda.gov.
